HAVE NOT YET AGREED

Nothing So Far Accomplished by the Miners' Convention.

GREAT DIFFERENCE OF OPINION.

President Ratchford Confident That the Delegates Will Finally Decide to Accept the Compromise, and That the Miners Will Soon Be Back to Work—The Latest Strike Information.

COLUMBUS, O., Sept. 10.—The miners' convention remained in executive session until late yesterday afternoon, adjourning without having taken a vote on the proposed settlement. President Ratchford said: "You may predict with every degree of certainty that a settlement will be reached and that the action of the national board in recommending a settlement will be endorsed. The delegates are beginning to see that the best thing they can do is to accept the proposition of the operators and return to work at the price offered. Nearly every delegate desired to say something regarding conditions in his own locality and the convention had to permit them to have their say. When they have finished the convention can get to work."

The arguments that have been presented by the officials and members of the executive board in favor of a settlement have had great weight with the delegates, who have come to the convention uninstructed, and even some of those who came with instructions have gone so far as to communicate with their constituents, asking to be relieved of instructions that they may be free to vote as they deem best. Should this drift of sentiment continue until a vote is taken the proposition for a settlement will undoubtedly be accepted.

The question as to whether a settlement on the lines proposed can be made general appears to be the stumbling block at this time. If the delegates from Illinois, Indiana, West Virginia and portions of Ohio were assured that the settlement would be beneficial to them as well as to the miners of the Pittsburgh district, they would not hesitate to vote for a settlement. The Illinois miners have not changed their position and positively decline to accept the terms of settlement proposed by the national board. The officials have partially met the argument of the Illinois miners by saying that if the Illinois delegates will agree to a settlement so that the miners of other states can resume work the Illinois operators will be forced to pay the price by their competitors in other states. Should Illinois agree to this arrangement Indiana and West Virginia will fall into line without hesitation.

The committee on resolutions is about equally divided on the question of a settlement, and will probably present two reports to the convention.

There were some fiery speeches in the executive session of the convention by delegates from Ohio, Illinois and West Virginia. Secretary T. L. Lewis of the Ohio miners said that no matter what action the convention took it would not settle the strike, and Organizer Ray, who has been at work in West Virginia, charged that the conditions in that state were due largely to it being overrun by nonunion miners from Ohio and the Pittsburgh districts. He said if these two districts had been organized properly there would have been no trouble in bringing the West Virginia miners into line.

A proposition to admit of additional delegates from Pennsylvania caused a stormy discussion. The Illinois delegates objected on the ground that if one state was allowed this privilege it should be accorded to all. The matter was of material importance, as to admit new delegates might change the vote, and the opposition was so strong that the motion to admit the additional Pennsylvania delegates was voted down.

An effort will be made by the officers to bring the convention to a close as soon as the prospects of a favorable vote on the proposition for a settlement are ripe.

Miners Still Marching.

HAZELTON, Pa., Sept. 10.—The striking miners continued marching yesterday. They marched to Beaver Meadow colliery, and before being dispersed by the deputies they drove all the employees from the mine. There are more miners idle today than at any time since the strike began. It is said that nearly 8,000 are on a strike. Manager Lawall of Lehigh and Wilkesbarre collieries failed to meet the men yesterday and matters are now more complicated than ever.

Miners Return to Work.

MARINETTA, O., Sept. 10.—The recently organized union miners at all the mines between here and Palos went to work yesterday morning at 54 cents, an advance of 6 cents over the old rate. The product is contracted for by Cleveland and Toledo parties at \$1.50 a ton.

A RIVER STEAMER SUNK. The Passengers All Got Off the Belle of Memphis Safely.

ST. LOUIS, Sept. 10.—The Anchor line steamer Belle of Memphis sank Wednesday night, near Croen's Island, just below Chester, Ills., in about nine feet of water. There is a break 40 feet long through her keel. There were about one hundred passengers on board, many of them St. Louis people, all of whom got off without accident.

The Belle of Memphis was rebuilt about two years ago.

LONG-CONTINUED DROUGHT. Corn in Northern Indiana Threatened With Total Destruction.

LA PORTE, Ind., Sept. 10.—The continued drought now threatens the almost entire destruction of the corn crop in northern Indiana counties, where there has been but little rainfall since the latter part of July. In some localities entire fields have been literally burned. Pastures are as dry as powder, and in some sections fires have caused serious losses.

The predicted phenomenal corn crop in the Gifford district in the Kankakee region, where a large colony of farmers settled, will be a total loss. The result is serious.

Housewives are carrying water for one-fourth mile and more who never were put to such inconvenience before.

Many farmers are hauling water three and four miles to supply their families and livestock.

TOWNS THREATENED BY FIRE. Flames on All Sides and Absolutely No Fire Protection.

WHITING, Ind., Sept. 10.—Whiting is surrounded on three sides by prairie fires, which are causing no little apprehension on the part of the citizens residing in the outlying districts. Already considerable property has been destroyed and much more is threatened.

The gravest apprehension is felt at Wilcox and Stitz Park, both settlements being situated on the open prairie and with absolutely no fire protection whatever. The flames are creeping closely and the residents are out in force fighting to save their homes.

Rider Badly Injured.

ST. LOUIS, Sept. 10.—Charles Slaughter, who has been riding for Barney Schriebers and other stables at the fair grounds, and who is well known at all the tracks throughout the south and southwest, especially in Texas, was badly and probably fatally injured yesterday. It was in the last event at the fair grounds that the unfortunate boy was thrown by his mount, Mary Nance, who slipped and fell. Slaughter is badly injured internally and his head crushed. Congestion of the brain is feared.

Woman Shot by Burglars.

ROCHESTER, Sept. 10.—At Churchville, a few miles west of Rochester, Wednesday night Mrs. George Smith was shot and fatally wounded by burglars. Mr. Smith, who is a man of wealth, was overpowered by two masked men, who bound and gagged him and by threats compelled him to give up \$1,300, which was in the house, and left him helpless to give the alarm. Mr. and Mrs. Smith occupied adjoining rooms. Mrs. Smith was shot in the ear, the bullet lodging in the back of the head.

Million Dollar Failure.

NEW YORK, Sept. 10.—James R. Willard, Elmer Dwiggins and J. Dwiggins, who compose the firm of J. R. Willard & Company, bankers and brokers, with offices in this city, Buffalo, Washington, Philadelphia and Montreal, have assigned to James L. Starbuck, with preferences for \$20,000 to William H. Osterhout. No statement of the condition of the firm is yet obtainable, but it is estimated their liabilities will reach \$1,000,000. Jay Dwiggins is at present traveling in Europe.

Bride Awakened With an Ax.

PRINCETON, Ind., Sept. 10.—Mrs. Sarah Oiphant, after securing a divorce from Henry Oiphant, married Charles Marsh, an enemy of Oiphant. The latter resented this by hurling an ax through the window into their sleeping-room, injuring the bride. Then came a personal collision between Marsh and Oiphant, in which both men were roughly handled, followed by several arrests.

DENVER, Sept. 10.—A report has just reached here that a head-on collision has occurred, a mile west of Newcastle, Colo., between a Denver and Rio Grande passenger train and a freight of the Colorado Midland. It is said that 10 or 12 people were killed.

Orphan Tot Sealed to Death.

HUNTINGTON, W. Va., Sept. 10.—Engene King, a 3-year-old boy at the children's home, an institution under the control of the King's Daughters, died last night from injuries resulting from turning a boiler of hot coffee upon him yesterday morning.

Smoked Cigarettes.

HARTFORD CITY, Ind., Sept. 10.—Barns belonging to H. B. Smith, president of the Citizen's bank, and H. M. Campbell burned yesterday with contents, including one valuable horse. The fire was caused by boys smoking cigarettes.

Barn and Contents Burned.

NEW CASTLE, Ind., Sept. 10.—A large barn belonging to Bartlett & Son, nine miles south, burned last night with all its contents, including two mules and one horse. Loss, \$1,200. Insurance unknown.

Strike Growing Serious.

ELWOOD, Ind., Sept. 10.—The strike at the tipple factory grows more serious as the company has men en route to take the places of the strikers and the latter are preparing to keep them out.

Complicating Matters.

ELWOOD, Ind., Sept. 10.—The blowers and gatherers began work at the Elwood window glass factory, but the cutters and flatteners refuse to work, badly complicating matters.

VICTIM OF THE FEVER

One More Death Has Occurred at Ocean Springs.

PRONOUNCED YELLOW FEVER.

Death of a Child, but It Is Thought to Be Due to Other Causes—The Dread Disease Exists at Biloxi—One of the Physicians at Ocean Springs Stricken Down. Latest Reports.

NEW ORLEANS, Sept. 10.—Sheray Seymour died at 1 o'clock yesterday morning at Ocean Springs of the prevailing fever. As soon as his death was reported arrangements were made by Dr. Guiteras to hold an autopsy, beginning at 9 o'clock. Drs. Murray, Carter and Wasdin of the marine hospital service and Drs. Lehman, Dunn, Gant and Baily were present.

Sheray Seymour was in bad health before he was stricken, was dissipated and unnecessarily exposed himself.

He was first treated with primitive methods by his family, no physician was called for four days, and when he showed temporary recovery he overate himself and died. Dr. Guiteras, Dr. Murray and all who participated in the autopsy declared, however, that there was no question that the man had died of yellow fever.

One of Dr. Guiteras' doubtful patients, a child, died yesterday. In Dr. Guiteras' opinion the child did not die of yellow fever.

Yesterday evening Dr. Guiteras pronounced the case of Ernest Reanges, now sick, as yellow fever. Dr. Seely, who has been nursing patients at Ocean Springs, has been stricken with yellow fever at his home at Perkinston, Miss. The case has been officially confirmed and Dr. H. S. Gulley of Meridian, state health officer, has gone to Perkinston to take charge of the town and establish quarantine.

Late yesterday evening the three cases heretofore reported as existing at Biloxi were confirmed as yellow fever by Drs. Murray and Gant, after a careful investigation. They are thoroughly isolated, and it is confidently predicted that a spread of the contagion will be prevented. A feeling of depression exists in Biloxi, but the little city is rising equal to the situation and a couple of tons of disinfectants are being scattered through the town.

In this city the board of health last night announced that there are 12 suspicious cases in one block down town. Under ordinary circumstances these cases would not have even been deemed suspicious, but two weeks ago a refugee from Ocean Springs died in that vicinity and since then the fever has spread there. None of the patients have died nor are any seriously ill. The board of experts have been studying the cases several days, but they have not been able to reach a definite conclusion, and it was finally decided to report the cases as suspicious, in accordance with the board's pledge to keep the public fully in its confidence.

The board of health has placed guards about the square and ordered a sanitary inspection for five squares around.

These 12 cases are on one square, in a row of six small houses. In one of these houses young lady from Ocean Springs, who was visiting a family here, died. Her remains were sent to Ocean Springs for interment. The attending physician had no suspicion that she had died of yellow fever.

Dr. H. S. Gulley, Mississippi's state health officer, has ordered the Gulf and Ship Island railroad from Hattiesburg to gulf port closed to traffic of any kind until further notice to prevent the spread of the fever from the infected towns on the gulf to interior points.

Nothing of moment has developed at Mobile. Quarantine has been declared there against Perkinston and Barclay, Jackson county, Miss.

Dr. Salamson and Dr. Kelly yesterday examined nine cases of fever in Moss Point. They declared that there is no case of yellow fever in that town nor even a suspicious case.

Dr. Guiteras will go to Biloxi and Scranton after he has completed his investigations in Ocean Springs.

AT BILOXI, MISSISSIPPI.

About a Dozen Cases of Yellow Fever, but No Deaths.

BILOXI, Miss., Sept. 10.—The three cases of yellow fever confirmed by the experts yesterday are in the Bosarge family and are traceable to the use of water in the place, which has been the source of sickness for years to every family living in the house. Dr. Bolton, who was treating the Bosarge family up to Monday last, is now sick himself, but his family do not admit he has the yellow fever. He has, however, a very high stage of fever. His physician, Dr. Bohne, is also on the sick list.

There are now in all about 10 cases of admitted yellow fever, but so far no deaths. All of the sick are doing well, and no serious results are feared.

Dr. L. C. Lebo, a prominent physician in this city, reported a case of black vomit yesterday, but the patient is doing fairly well. Dr. J. R. Tackett says that he has in his practice eight cases of genuine yellow fever scattered all over the city.

MONTGOMERY, Ala., Sept. 10.—In accordance with the recommendations of the state board of health, Governor Johnson has issued a quarantine proclamation against all places infected with yellow fever. Rumors to the effect that yellow fever exists in Montgomery are absolutely false. There is not now, nor has there been a case of the disease in this city.

ALL EXPERT TESTIMONY.

Luetgert Possessed of More Nerve Than Any Other Man Ever Tried in Chicago.

CHICAGO, Sept. 10.—Both the morning and afternoon sessions of the court in the trial of Adolph Luetgert were consumed in the taking of expert testimony. Through chemical analysis the state must establish not only the possibility of a human body being dissolved by the action of caustic potash heated to the boiling point, but also the fact that the bits of bone, hair and flesh and the scrapings of pinkish brown material from the interior of the vat in the sauge factory are portions of the body of a human being. If they can demonstrate these two propositions beyond a reasonable doubt, one of the most important portions of their case will have been accomplished. By circumstantial evidence they have endeavored to prove that Luetgert was anxious to rid himself of his wife, and that he enticed his wife to his factory on the evening of May 1. By expert testimony they expect to prove that Mrs. Luetgert's remains are now represented by the bits of beef, flesh and hair.

Two expert witness have been called, Dr. Charles B. Gibson and Professor Mark Delafontaine. Dr. Gibson, whose direct examination was begun Wednesday, offered further testimony for the state and was turned over to the defense for cross-examination. Professor Delafontaine was examined by Assistant State Attorney McEwen, the direct examination occupying the remaining time of the morning session and the entire afternoon session.

The prosecution could not draw from Professor Delafontaine the assertion that the bits of flesh were human flesh. They might be human, but they might also be the flesh of an animal. The bones he was sure were human bones, but regarding the flesh he was very guarded and careful in his statements.

At no time during the day did the defendant display any emotion, not even when the big dry goods box with its grawsome contents of flesh and bones was placed a few feet from him near the jury. He handled the gunny sacks and inspected with curious glance the bits of flesh and bone which were passed gingerly from attorney to attorney, but at no time did his hand tremble or the look of ordinary interest give way to pallor or an averted glance. Innocent or guilty, the verdict of all is that Luetgert is possessed of more nerve than any other man who has ever been tried for murder within the precincts of the criminal court building.

The attorneys for the defense continue in their confident attitude and assert that when their prisoner is acquitted, and they declare that when he is free, a number of damage suits are to be commenced. They intend that those who have "manufactured evidence," as they put it, shall suffer for the wrong which they say has been done their client.

FORCING CIVILIZATION.

Uncompahgre Indians Must Take Allotments of Lands at Once.

WHITE ROCK, Utah, Sept. 10.—Instructions to the commissioners who are to allot the Uncompahgre Indian lands, have been received, and among other things the instructions say: "Your first duty will be to assemble the Uncompahgre Indians in council and explain to them the provision of the act of 1897 and the necessity that exists for them to take allotments at once, if they desire to retain any of their lands within the reservation proper, as otherwise they will be opened to settlement on the 1st of April next."

From this it will be readily seen that the government is endeavoring to force the Indians to accept civilization, but they failed in the past and the uneasy temper of their wards render success doubtful.

KENTUCKY CROPS.

Corn Has Been Injured by Drought and the Tobacco Is Late.

FRANKFORT, Ky., Sept. 10.—The Kentucky crop report, just issued, shows that drought prevailed over almost the entire state during August, and the condition of corn has fallen from 98 to 88. Early corn will, to a great extent, constitute the crop.

The tobacco crop percentage is 60. The remarkable fact concerning tobacco is that 5 per cent has been housed. This is in striking contrast with last year, when 75 per cent was cut and housed at this date.

The farmers of Kentucky still hold 56 per cent of the wheat crop.

Death of a Gallant Soldier.

WASHINGTON, Sept. 10.—Adjutant General Ruggles received a telegram yesterday, saying that Captain Samuel McConahey of the Fourteenth infantry died at St. Luke's hospital, New York city, Wednesday evening, from Bright's disease. Captain McConahey was one of the heroes of the civil war and received six brevets for gallant and meritorious services, the last being as brigadier general of volunteers for conspicuous gallantry at the battles of the Wilderness and Spottsylvania.

An Insurance Man Shot.

MOBILE, Sept. 10.—At Atmore station, on the Louisville and Nashville road, Grayson Hanks, a traveling life insurance agent of Newport or Covington, Ky., was shot in the mouth and seriously wounded by a man named McDonald of Atmore. The two had a quarrel. McDonald went home and armed himself, and, returning to the station, shot Hanks as soon as he saw him. The shooter was arrested.

GLASGOW, Ky., Sept. 10.—Sam Tarter, 28, brakeman, was instantly killed at Cave City yesterday. He fell from a freight train.

INDICATIONS.—Generally fair weather; probably cooler Friday night; light to fresh southerly winds.

THAT Republican deficit continues to grow. It amounted to \$28,256,544 at last accounts. Probably Mr. Dingley's bill will produce enough revenue in the course of time.

TERESA SPECKER, a Covington musician who is on the tax books for only \$6,000, appeared in court this week, voluntarily, and said she was worth \$18,000, and asked to be assessed on that amount. If all were as honest as she, what an addition would be made to the tax duplicate in every city and county. There are some people right here in Maysville who perceive themselves every time they make oath to their assessment.

WHITE Republicans of Georgia and Louisiana are up in arms over the appointment of negroes to important Federal offices in the two States. At New Orleans a strong Republican club has adopted resolutions denouncing the appointment of DeMae, a colored Republican, as naval officer for that revenue district. The club declares that such an appointment will be a return to the era of corruption in Louisiana, and will destroy the Republican party in that State. DeMae is denounced as a "notorious boodler."

THE Kentucky crop report for August, issued by Agricultural Commissioner Moore yesterday, shows such a prosperous condition of affairs among the farmers and cattle raisers of the State that Chairman Hampton, of the State Central Committee, thinks it should be scattered broadcast among the people of the State, as is evidenced by the following letter received from him to-day from Louisville, under date of the 7th, by Commissioner Lucas Moore:

"I noticed in the papers of yesterday that your agricultural report for August has been given to the printers, and that it will show up exceedingly well for the farmers of Kentucky. As soon as it is printed I wish you would send me as many copies as you can, as I believe it will make splendid campaign literature."

—Louisville Commercial.

Of course, the report wasn't gotten up for "campaign purposes." Commissioner Moore wouldn't do anything of the kind. Still, it's just a little suspicious that his report doesn't harmonize at all with the report sent out by the Government Weather Bureau's observer at Louisville.

ROSEN A U BROS., KINGS OF LOW PRICES

MR. JOHN STILLWELL.

A Former Resident of Maysville Died Recently at His Home in Lafayette, Indiana.

Mr. John Stillwell, an old-time resident of Maysville,—born and reared here,—died a short time since at Lafayette, Ind., aged about eighty-two years.

His first wife was a daughter of the late Mr. Robert Humphreys, of this county, and a sister of Mr. George R. Humphreys, of Washington, and Mrs. Alice H. Evans, of this city. She left two children, Mrs. Laura S. Greene, of Colorado Springs, Col., and Mr. John Stillwell, of Joplin, Mo. The last wife of Mr. Stillwell was a Miss Fleming, of Lexington, who survives him, with two children, a son and daughter.

Mr. Stillwell had been prominent in several cities in his day as a business man and speculator, but for many years had made his home at Lafayette. He expressed the desire to be laid at rest by the side of his parents here in Maysville, but he was buried in Lexington where his last wife's people are buried.

The C. and O. Leads the List.

Heavier train loads are probably hauled over the Chesapeake and Ohio and at a lower average per ton per mile than over any other road in the United States. Since 1890 the average freight train load hauled over the C. and O. has increased from 225 tons to 352 tons for the company's fiscal year ending June 30 last. The increase in the average train load for the fiscal year just past shows an increase of 27 tons over the average train load hauled during the preceding fiscal year.

The Lake Shore, with its light grades, hauls an average train load 30 tons less than the C. and O. Taking the last report obtainable of the roads named, it shows the average train loads hauled to be: Chesapeake and Ohio, 352 tons; Lake Shore, 322 tons; New York Central, 263 tons, and Great Northern, 256 tons.

An important injunction case was heard by Chief Justice Lewis of the Court of Appeals in chambers Wednesday. The case is that of Meek against the Chesapeake and Ohio railroad, in which Meek is seeking in the Johnson County Circuit Court to have a penalty assessed against the road for alleged discrimination in freight rates. The C. and O. asked for an injunction in the lower court, which was granted, but was afterwards dissolved. After arguments by ex-Attorney General Hendrick and Attorney Mays for Meek, and A. M. J. Cochran and W. H. Wadsworth, of this city, for the road, Judge Lewis reinstated the injunction temporarily, and the case will be argued in the Court of Appeals at the coming term.

J. H. RAINS & Co. pay the highest market price for wheat and rye, and have for sale the best brands of flour and salt. W. C. Moore, Chesapeake and Ohio agent at Ewing, Montgomery County, and Miss Sallie Anderson, of Mt. Sterling, eloped to Richmond this week where they were married. A tinge of romance is given the affair by the fact that Miss Anderson was for years Mr. Moore's Sunday school teacher, making a protege of him when a youth, encouraging him and putting him on the road of success.

BROWNING & CO

Shoes!

When we concluded to handle Men's and Youth's Shoes, quality was the first consideration in our purchase. As ranks in quality all our various lines, so will the quality of our Shoes rank too.

Messrs. Smith & Stoughton, of Boston, Mass., who made our Shoes for us, say to us, "Your \$2 and \$2.50 Shoes excel all others at the price." They further say, "We have made you a Shoe to retail at \$3 that you can guarantee to wear equal to any \$4 Shoe made in the country. We warrant every pair of them." The above-mentioned lines are in and on sale. The balance of our line, comprising many new novelties in many different shades and finish, will be in soon; It will pay you to wait for them if you can conveniently do so.

A WORD OR TWO ABOUT OUR

Clothing!

Our entire lines are in, and we are anxious to have you look at them. They represent the productions of the leading manufacturers of Tailor-made Clothing in the country. There is no novelty in the market, such as Plaids, Overchecks, Stripes and colors that is not represented in our stock. We will take pleasure in showing them to you, whether you want to buy or not. Favor us with your critical examination.
